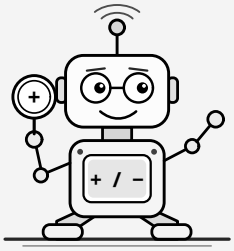
PAPILUMO / 2nd Grade (ages 7–8)

Mixed 2-Digit Column Addition & Subtraction

Check the operator sign (+ or −) on each stacked card first, start in the ones column (O), then solve the tens column (T) with no regrouping.



Sign alert! Always check + or − before you add or subtract.

Romi the watchful robot scans every stack: watching + or − stops sneaky sign mix-ups!

Worked pair: same bottom digits, different operator signs

	T	O
	4	2
+	2	5
	6	7

vs

	T	O
	4	7
−	2	5
	2	2

1. Solve all 12 stacked problems—watch the + and − sign carefully on every card

1

	T	O
	3	4
+	2	5

2

	T	O
	5	8
−	2	3

3

	T	O
	4	1
+	3	7

4

	T	O
	7	6
−	4	2

5

	T	O
	5	0
+	3	6

6

	T	O
	6	9
−	3	1

7

	T	O
	2	3
+	6	4

8

	T	O
	8	5
−	5	2

9

	T	O
	6	2
+	2	7

10

	T	O
	9	4
−	4	4

11

	T	O
	1	3
+	5	6

12

	T	O
	9	7
−	3	6

Romi's tip: check the + or − sign first, solve the O (ones) column on the right, then the T (tens) column on the left.
