Name : _____ Date : _____

PAPILUMO / Kindergarten (ages 5–6) · 1st Grade (ages 6–7)

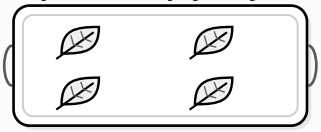

Adding zero: the number stays the same

Write 0 for the empty tray. Then complete the total.

Lumi the koala sorts his leaves. One tray is empty. How many leaves are there altogether?

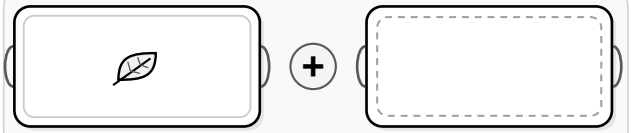

Example: an empty tray holds 0 leaves

4 + 0 = 4 ⟷ **0 + 4 = 4**

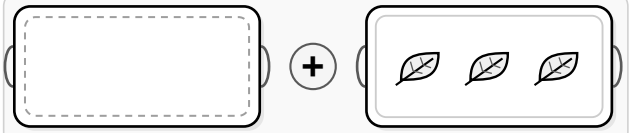

Adding 0 leaves the number of leaves unchanged, in either order.

1.

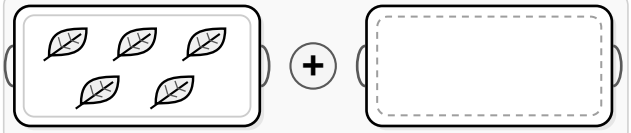

1 + ☐ = ☐

2.

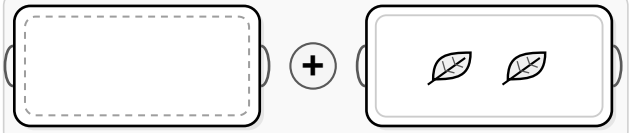

☐ + 3 = ☐

3.

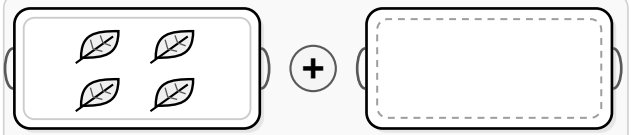

5 + ☐ = ☐

4.

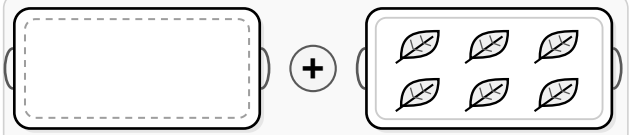

☐ + 2 = ☐

5.

4 + ☐ = ☐

6.

☐ + 6 = ☐

ⓘ An empty tray holds 0 leaves. No new leaves are added.
