Addition Word Problems Within 10

Read each word problem, count the two picture groups, and write the addition equation.

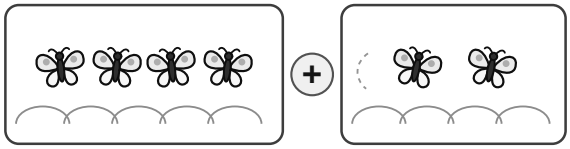

Nino the koala is exploring the sunny garden. Help him count each scene and write the addition sentence!

Example **2 flowers are open. 3 more flowers bloom. How many flowers in all?**

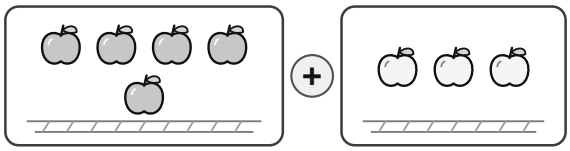

Count the first group (2) and the second group (3), then write 2 + 3 = 5.

1 **4 butterflies are on a bush. 2 more butterflies fly in. How many butterflies are there in all?**

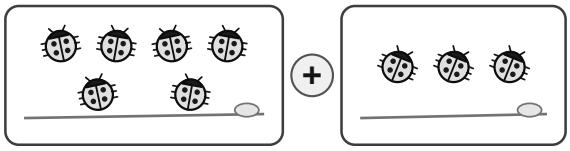

_____ + _____ = _____ **butterflies**

2 **Nino picks 5 red apples and 3 green apples. How many apples does he have in all?**

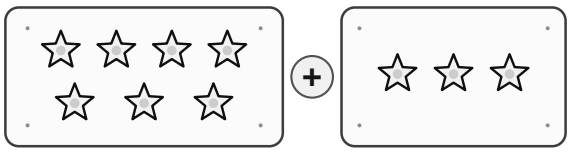

_____ + _____ = _____ **apples**

3 **6 ladybugs walk on a branch. 3 more ladybugs join them. How many ladybugs are there in all?**

_____ + _____ = _____ **ladybugs**

4 **7 stars shine above the garden. 3 more stars light up. How many stars are shining now?**

_____ + _____ = _____ **stars**

Check that both addends in your equation match the two picture groups.
