Doubles Facts 6 to 10

Count the matching halves on each picture card to write the sum, then solve all six quick doubles and missing-addend facts.

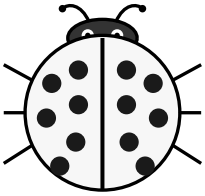

Nila the twin butterfly has 6 spots on each wing:
6 + 6 = 12! Help her master all the big doubles up to 20.

Example: Nila's twin wings — 6 + 6 = 12.

6 + 6 = 12

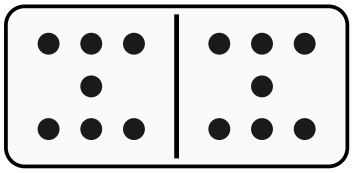

1. Solve the five mirror-image doubles cards (6+6 to 10+10)

1

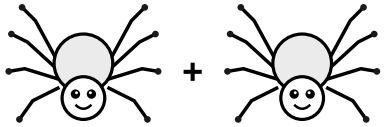

6 + 6 = 12

2

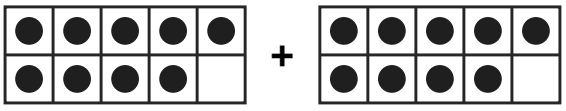

7 + 7 = 14

3

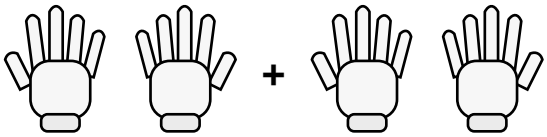

8 + 8 = 16

4

9 + 9 = 18

5

10 + 10 = 20

2. Complete the six quick doubles and missing-double facts

1

7 + 7 = 14

2

9 + 9 = 18

3

6 + 6 = 12

4

8 + 8 = 16

5

10 + 10 = 20

6

6 + 6 = 12

Tip: a double always adds two equal halves together. Check that both empty addend boxes hold the exact same number!
