Trace and Color Forest Animals

Start at each solid black dot to trace smoothly along the dotted lines, then color all four woodland drawings.

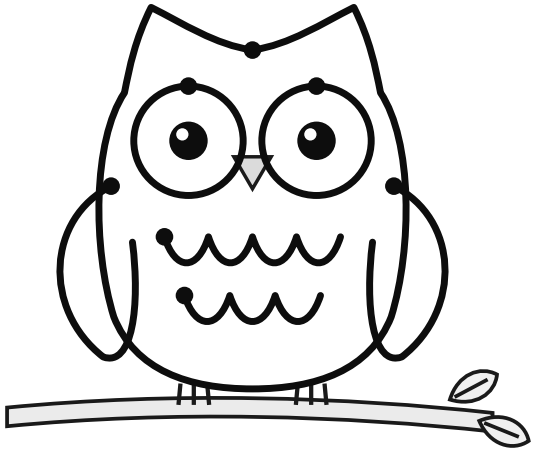

Eli the little artist squirrel sketched four cheerful woodland pictures in his sketchbook. Help him trace every dotted line, then bring each scene to life with color!

Example: place your pencil on the black dot and glide slowly along the dotted path.

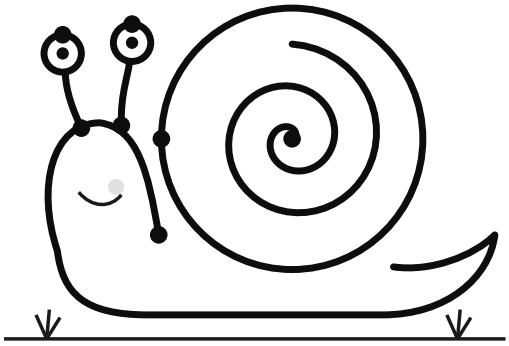

Trace all four woodland pictures carefully, then color them in

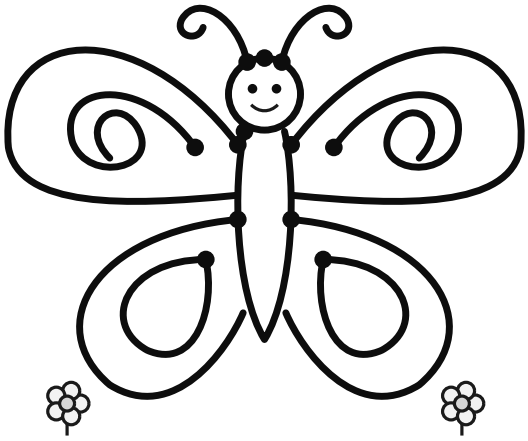

1 Friendly Owl

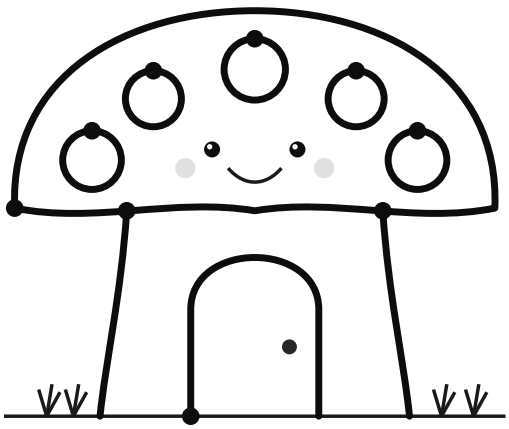

2 Spiral Snail

3 Looped Butterfly

4 Mushroom House

Eli’s tip: gently turn your page whenever needed so your wrist moves comfortably along curves before you begin coloring.
