Name : _____ Date : _____

PAPILUMO / Kindergarten (ages 5–6)

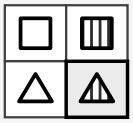

2×2 Visual Logic Matrices

Look across each row and down each column, then circle the choice (A, B, or C) that belongs in the ? box.

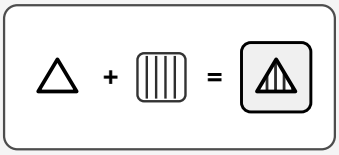

Pico the detective fox is cracking six coded grids! Spot what stays the same across each row and what changes down the columns.

Worked example:

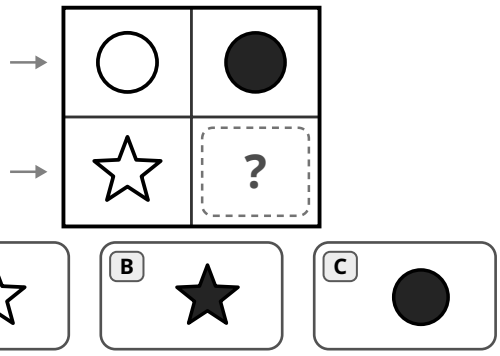

→ **Row: same shape**

→ **Col: plain -> striped**

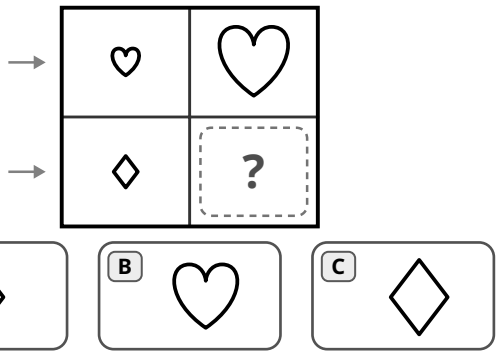

Solve each 2×2 matrix puzzle and circle A, B, or C for the missing ? piece:

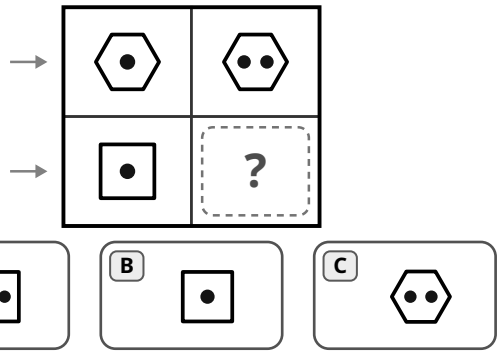

1 Puzzle 1

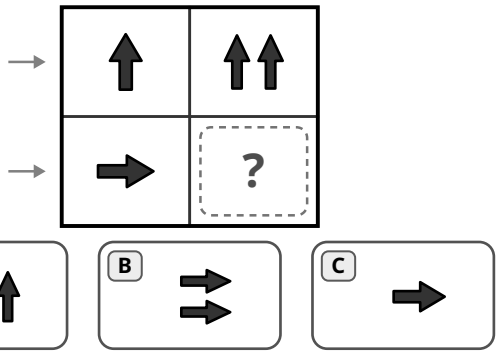

2 Puzzle 2

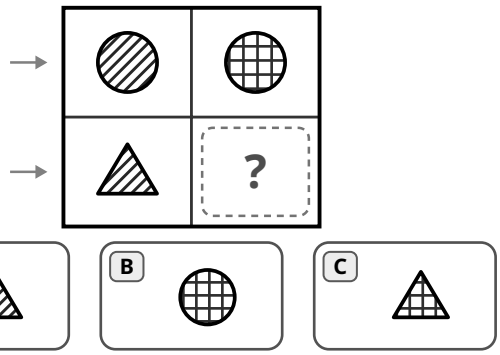

3 Puzzle 3

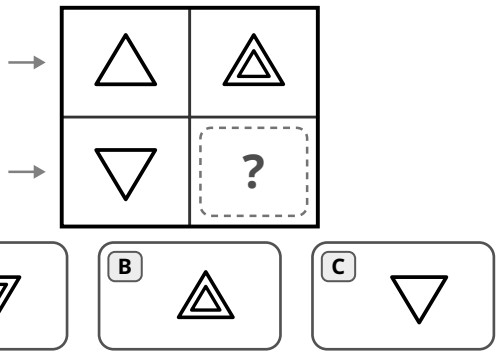

4 Puzzle 4

5 Puzzle 5

6 Puzzle 6

Pico's tip: check what stays the same along the bottom row first, then see how the right column changes before circling A, B, or C.
