Sort Land, Water & Air Transport

Draw a line from each vehicle to its zone (road, sea, or sky), then write how many belong in each box.

Toto the pilot toucan is sorting six vehicles before takeoff—help him match each one to where it travels!

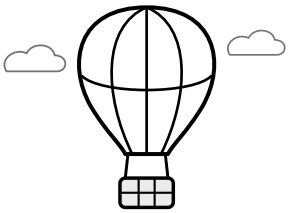

Example: The bicycle rides on the road.

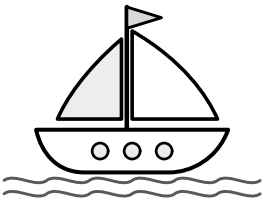

1. Match each vehicle to its zone, then write how many belong in each box

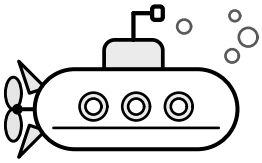

Car

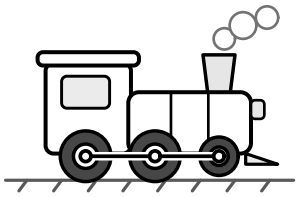

Hot-air balloon

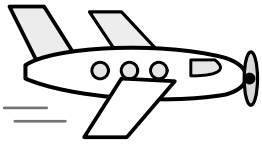

Sailboat

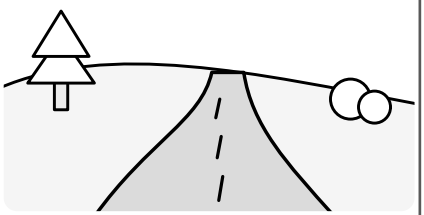

Submarine

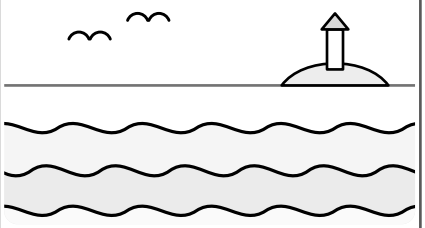

Train

Airplane

Road · Land

Sea · Water

Sky · Air

How many? **2** **How many?** **2** **How many?** **2**

Toto's tip: lightly check off each vehicle after matching it, then count the two lines arriving at each zone.
