Beginner Garden Mazes

Start at each big black dot and draw a smooth path down the middle of the white corridor without touching the walls or entering the dead end.

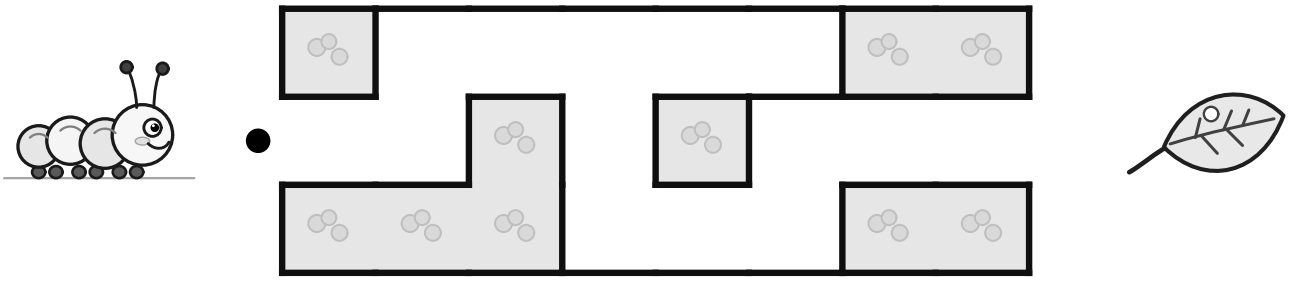

Lulu the garden snail's friends are hungry! Follow the wide white path from the big black dot to each garden treat.

Worked example: follow the dashed path from the bee to the flower

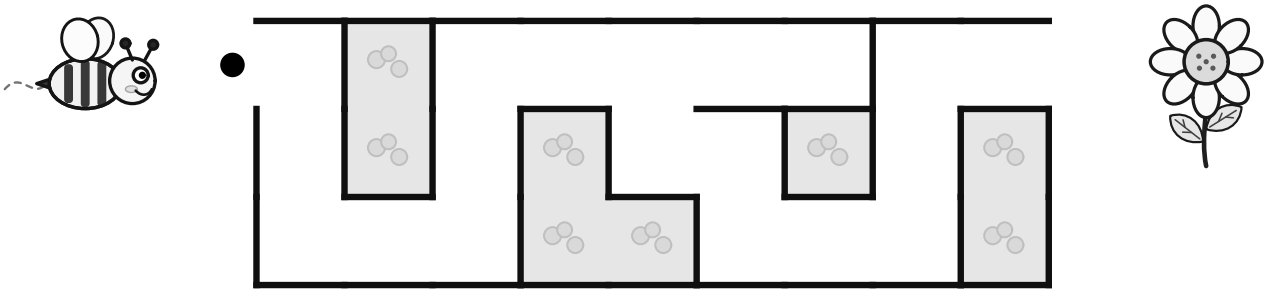

Guide each garden friend through a wide-corridor beginner maze (only one easy dead-end branch)

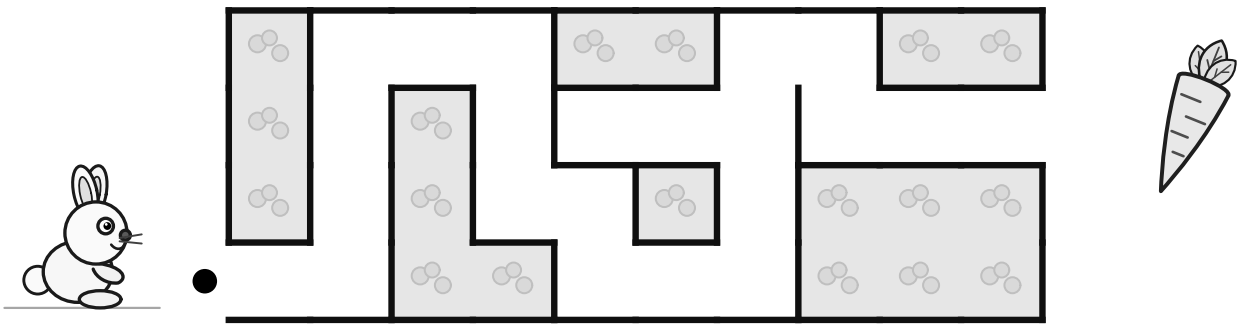

1 Maze 1: Help the caterpillar reach the juicy leaf

2 Maze 2: Help the honeybee reach the daisy flower

3 Maze 3: Help the bunny reach the crunchy carrot

Lulu's tip: look ahead with your eyes at the fork so you spot the closed dead-end wall before your crayon turns!
