Picture Concept Analogies

Look at the first picture pair on the left, read each word, and circle the matching picture on the right.

Zelie's tip: say out loud how the first two pictures belong together!

Zelie the logic ferret loves clue pairs: "A goes with B, just like C goes with ...?"

Worked example: notice how the first pair matches the second

raincloud → umbrella :: sun → **sunglasses**

1. Study the left pair rule and circle the matching picture choice (A, B, or C) on the right

1 glove → hand :: sock → ? | A hat | B **foot** | C ball

2 sun → day :: moon → ? | A **night sky** | B apple | C chair

3 bird → nest :: fish → ? | A shoe | B book | C **water bowl**

4 spoon → soup :: fork → ? | A drum | B **pasta plate** | C bell

5 broom → floor :: toothbrush → ? | A bicycle | B cup | C **teeth**

Zelie's tip: make a quick sentence ("a glove goes on a hand, so a sock goes on a...") before circling your choice.
