Picture Concept Analogies

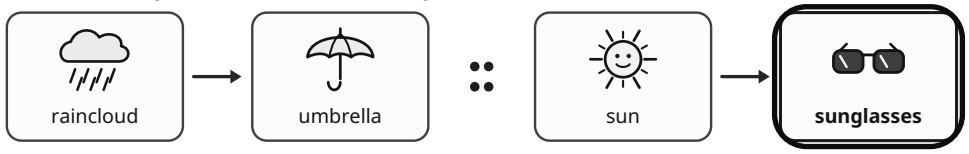

Look at the first picture pair on the left, read each word, and circle the matching picture on the right.

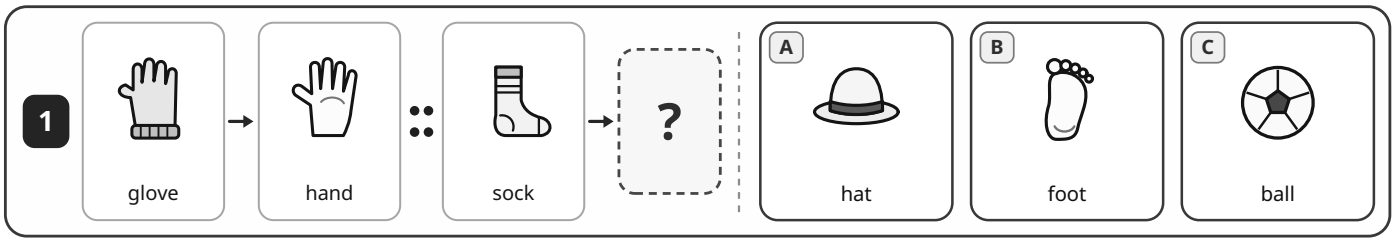

Zelie's tip: say out loud how the first two pictures belong together!

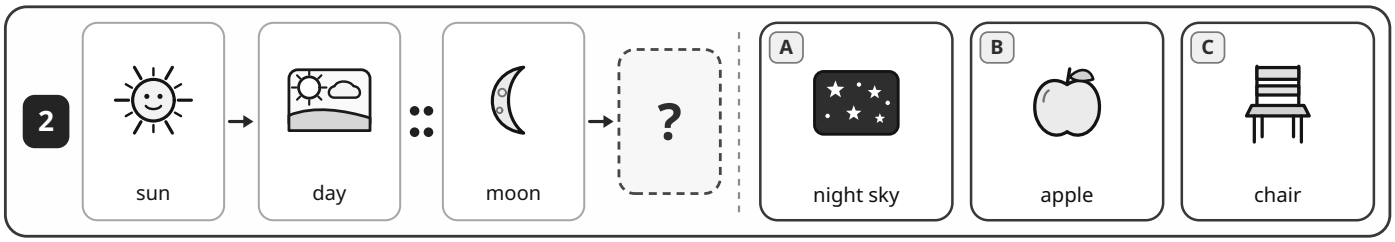

Zelie the logic ferret loves clue pairs: "A goes with B, just like C goes with ...?"

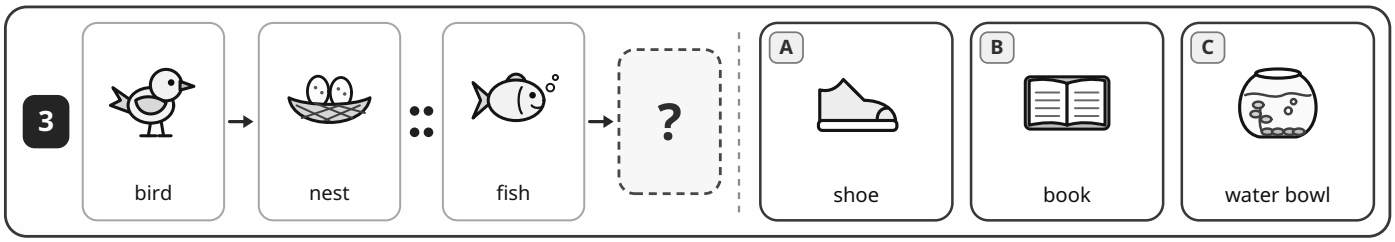

Worked example: notice how the first pair matches the second

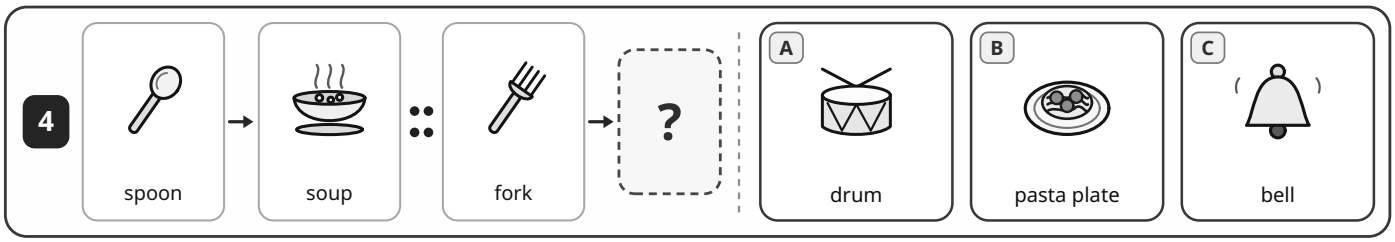

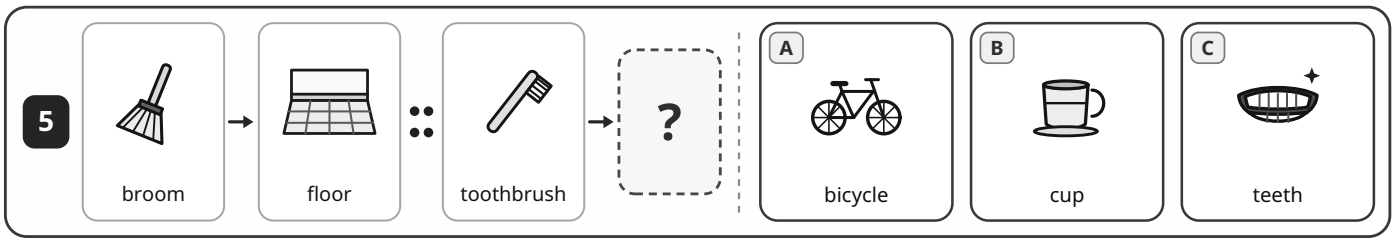

1. Study the left pair rule and circle the matching picture choice (A, B, or C) on the right

Zelie's tip: make a quick sentence ("a glove goes on a hand, so a sock goes on a...") before circling your choice.
