PAPILUMO / Preschool (ages 3–4)

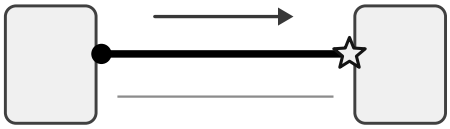

Horizontal Lines: Bridges and Ladders

Start at each big black dot on the left and trace straight across to the star on the right to build the bridges and ladder.

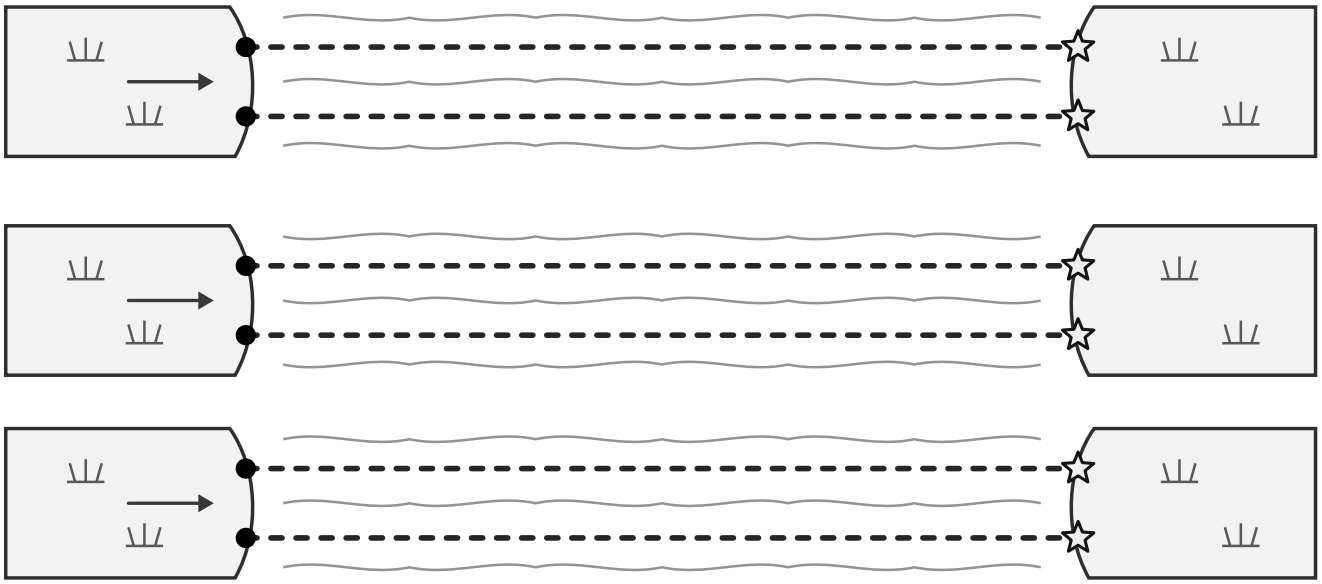

Toto the builder beaver is carrying wood planks! Help him trace flat river bridges and treehouse ladder rungs from left to right.

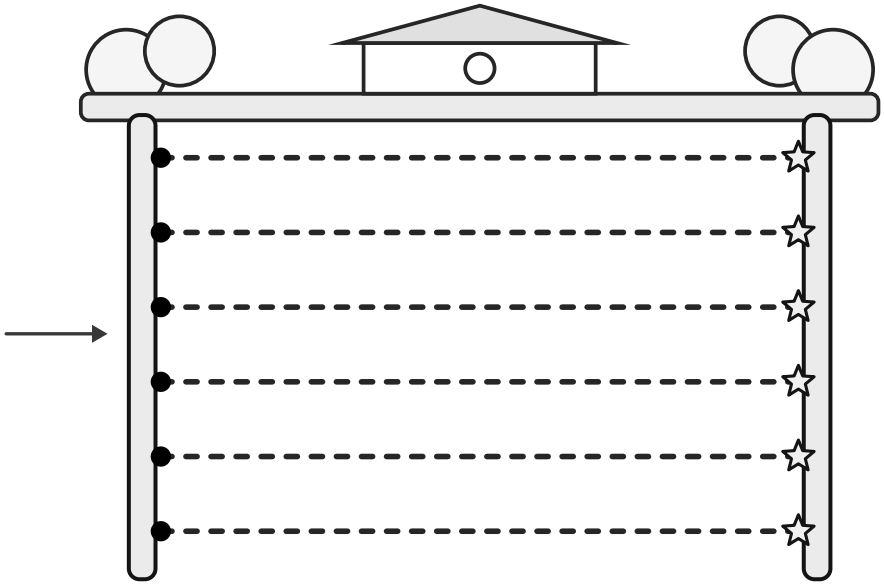

Example: left to right

1. Trace all 6 long horizontal bridge planks from the left black dots across to the right stars

2. Trace all 6 wide horizontal ladder rungs cleanly from left to right to reach the treehouse

Toto’s tip: keep your eyes locked on the star on the right while your hand slides straight across from the black dot!
