PAPILUMO / Kindergarten (ages 5–6) • Answer key

Two-Attribute Shape Patterns

Find both rules in each strip (shape plus shading or size), then draw the next two missing shapes in the dotted boxes.

Zia the marmot loves double-rule puzzles! First track the shape pattern, then track the shading or size rule to draw the two empty boxes.

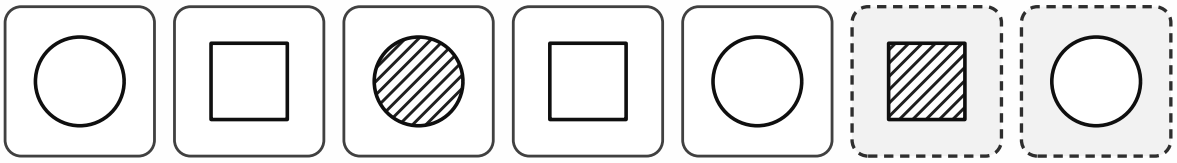

Example: shape (AB) + fill (ABC)

1 2 3 4 5 6 [7]

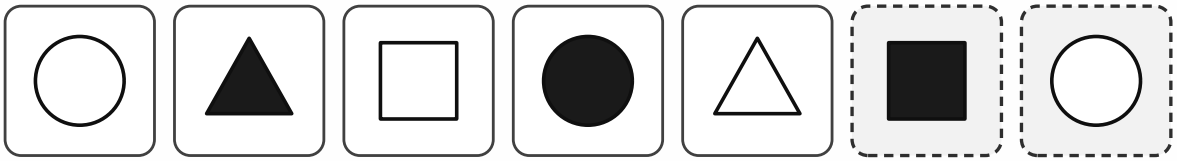

Study each 7-box strip and draw the 2 shapes that come next.

A

Shape: AB | Fill: AAB

B

Shape: ABC | Fill: AB

C

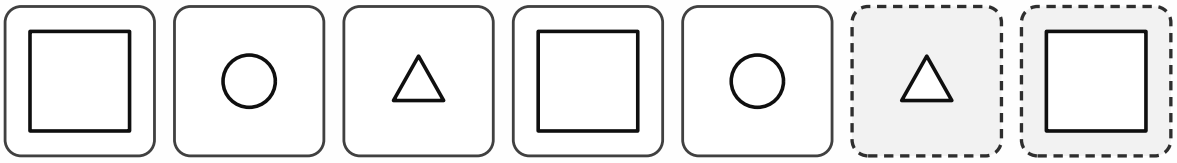

Shape: AAB | Size: big-small

D

Shape: AB | Fill: ABC

E

Shape: ABC | Size: big-small-small

Zia's tip: read each strip twice aloud—first chant only the shapes, then chant only the shading or size!
