Name : _____ Date : _____

PAPILUMO / 1st Grade (ages 6–7)

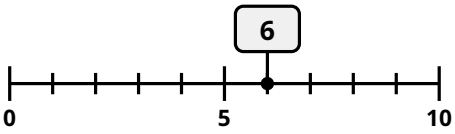

Number Line Positions (0 to 20)

Fill the missing tick numbers in the boxes below each line in Part A, then write the exact number on each pointer flag in Part B.

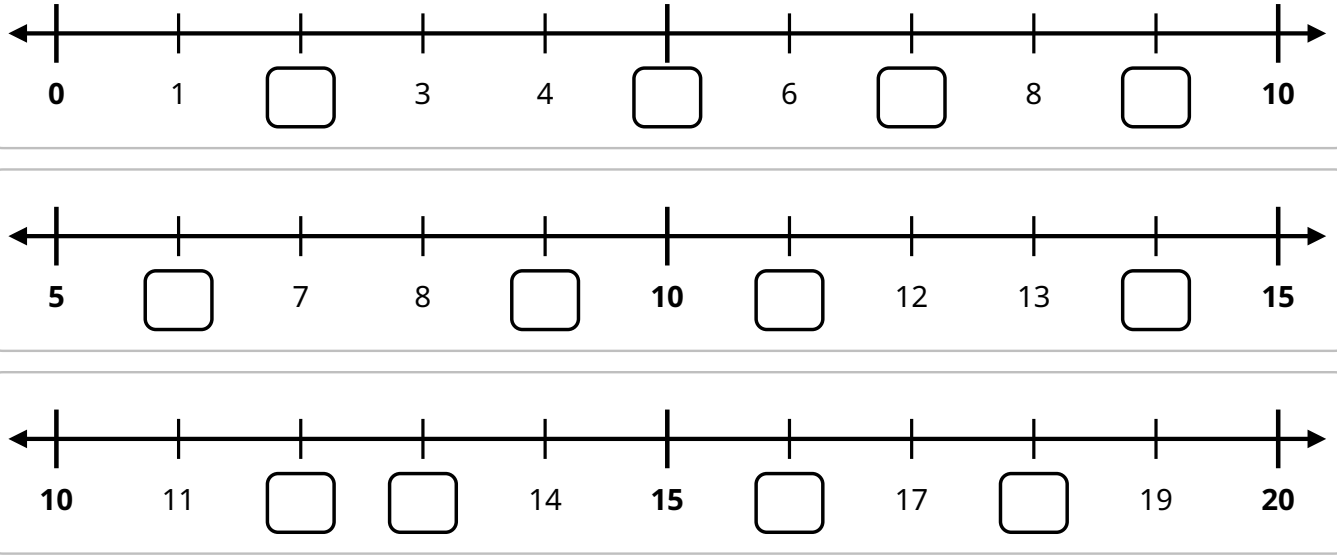

Bibi the frog loves hopping along number lines! Help her fill every missing box and label each flag from 0 to 20.

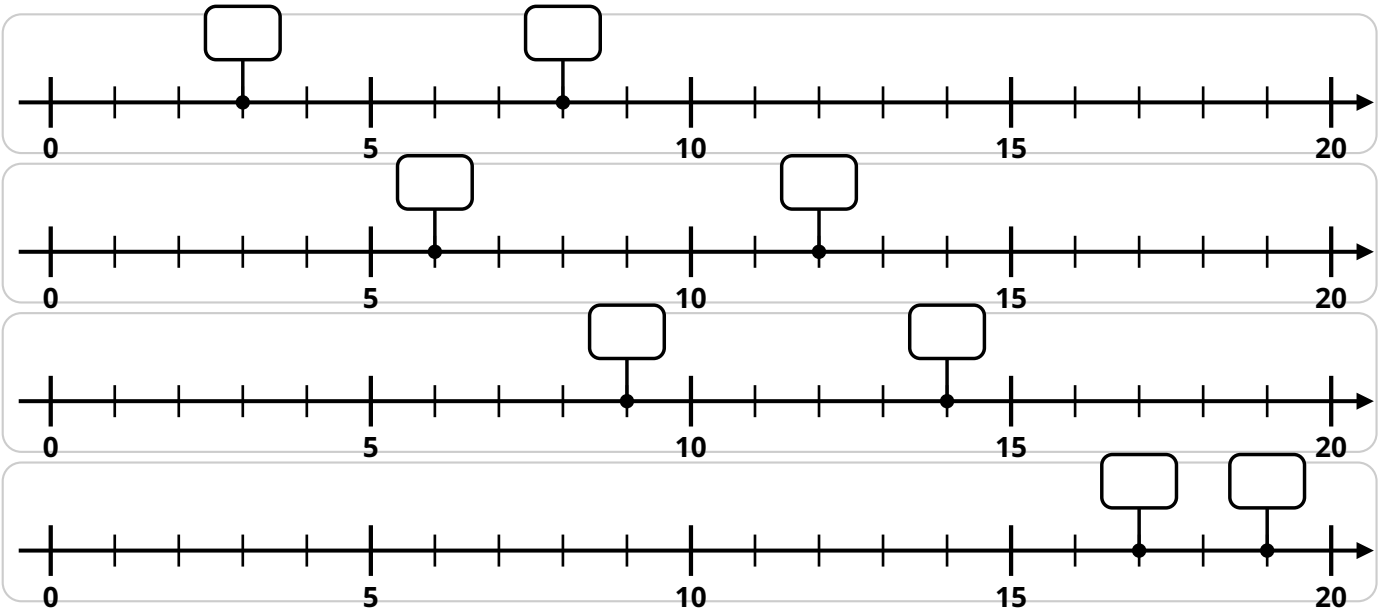

Example: Bibi at 6 (0 to 10)

Part A: Write the missing numbers in the boxes on each graduated number line

Part B: Use the 0, 5, 10, 15, and 20 benchmarks to label every pointer flag

Bibi's tip: start counting from the closest 5, 10, or 15 benchmark mark instead of counting all the way from zero!
