PAPILUMO / Preschool (ages 3–4) • Answer key

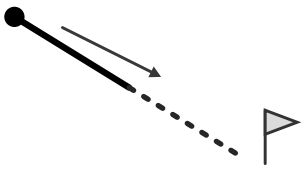

Slanted Lines: Slides, Roofs & Ski Tracks

Start at each bold black dot at the top and trace a straight slanted line downward along the dotted path.

Whoosh down the mountain with Tico the skiing marmot! Trace each straight slanted line from the top dot to the bottom.

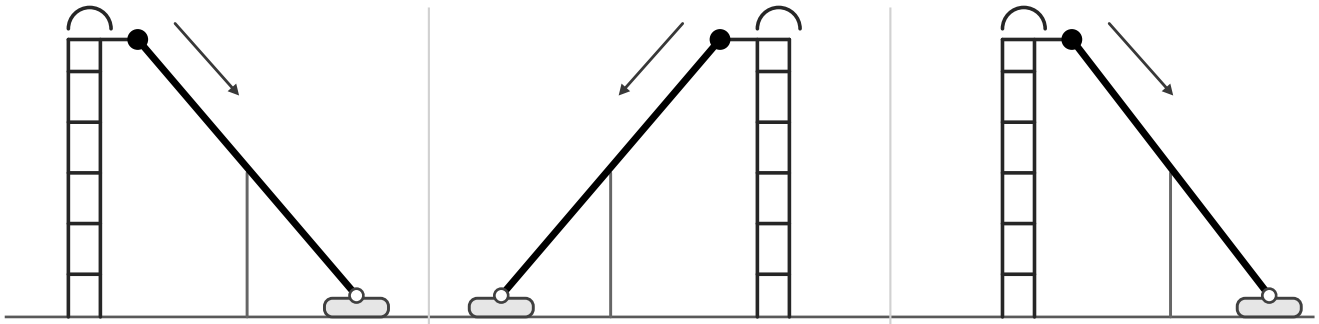

Example: trace down the slope

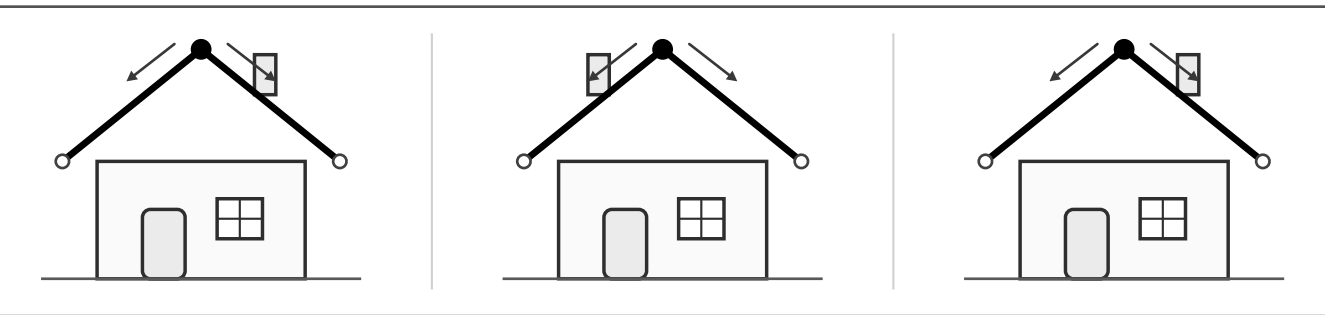

1. Warm-up: 3 down-right (\) and 3 down-left (/) slanted rays

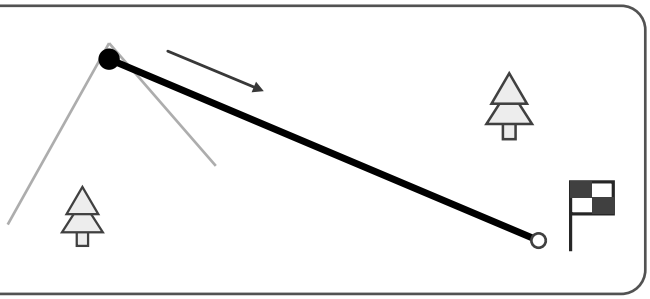

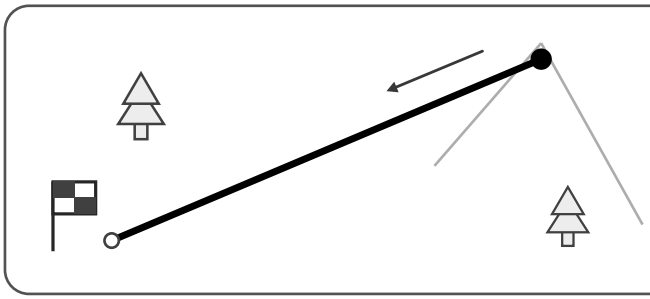

2. Trace the slanted slide chute on all 3 playground slides

3. Trace 6 pitched chalet roof slopes and 2 downhill ski tracks

Tico's tip: keep your wrist steady on the top dot and glide straight down the diagonal slope without curving!
