Garden Trellis, Fences, and Bunting Tracing

Start at each bold black dot and carefully trace over the dotted trellis bars, fence pickets, bunting flags, and stepping stones.

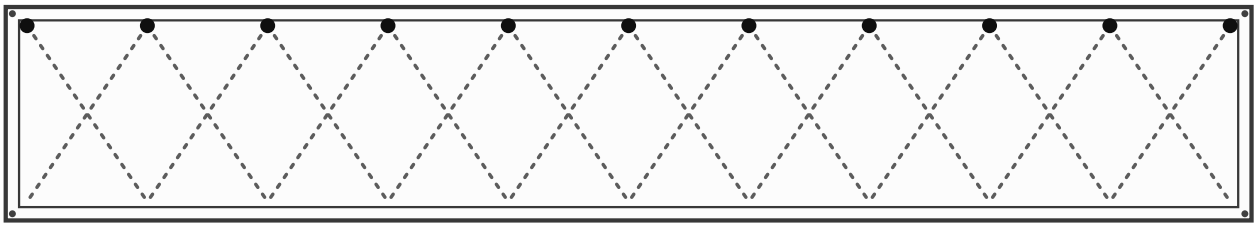

Lumi the Gardener Hedgehog is fixing up the garden! Help trace the diamond trellis, picket fence, party bunting, and stone path.

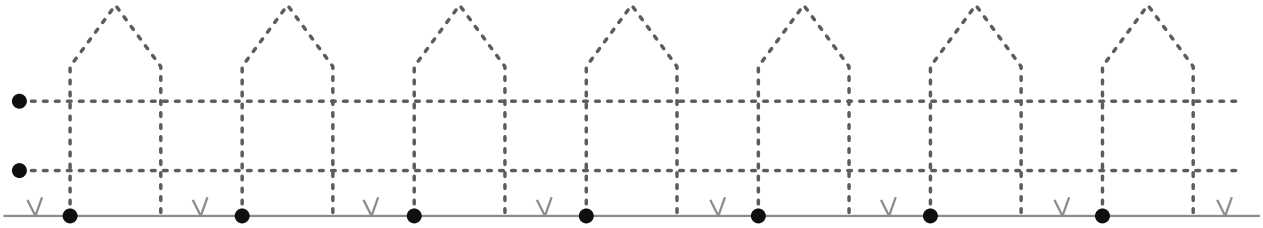

Example: 2-diamond trellis

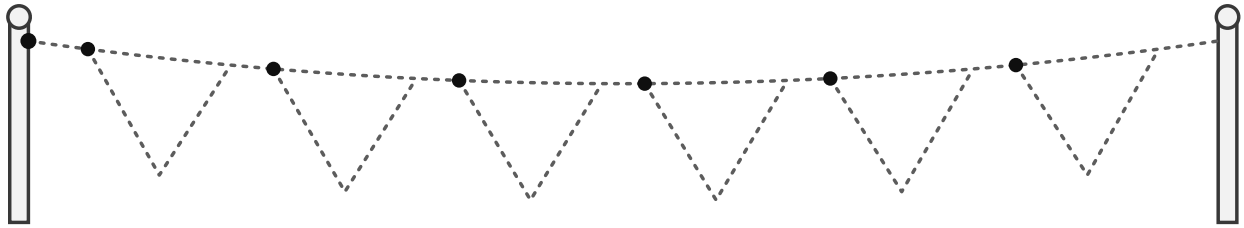

1. Garden Trellis Lattice (trace diagonal bars both ways to form diamonds)

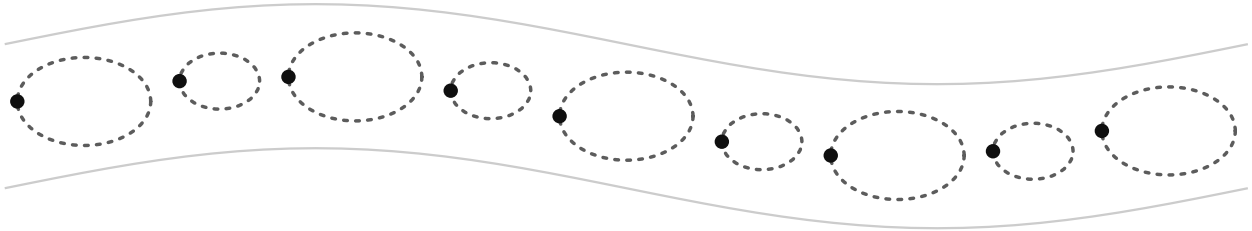

2. Pointed Picket Fence (trace 7 peaked pickets and 2 horizontal crossbars)

3. Party Bunting Flags (trace the curved hanging cord and 6 triangular flags)

4. Stepping-Stone Path (trace alternating big and small oval garden stones)

Lumi's tip: trace all slant lines one way first, then cross them the other way to make neat garden diamonds!
