Alternating Loops, Under-Loops, and Figure-8 Ribbons

Trace the dotted guides and continue smoothly across the anchor dots in one continuous cursive stroke without lifting your pencil.

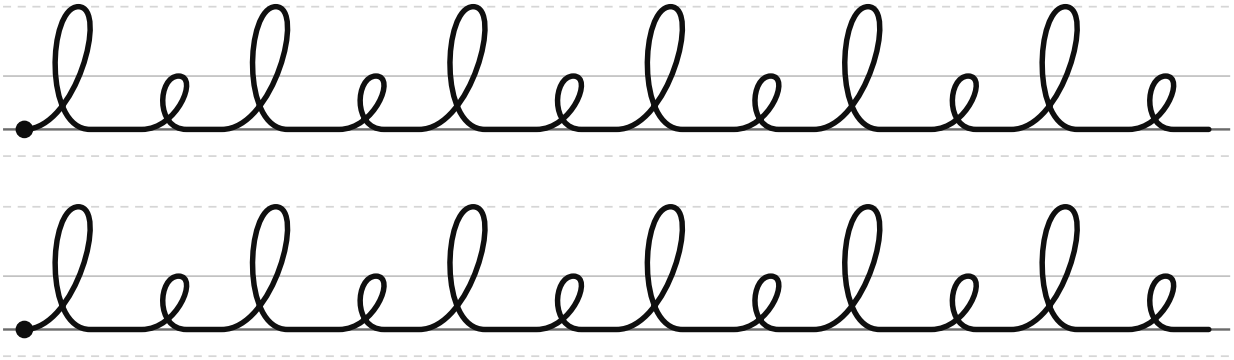

Nila the Otter glides across the ice rink! Trace alternating tall-short loops, deep under-loops, and smooth figure-8 skating ribbons.

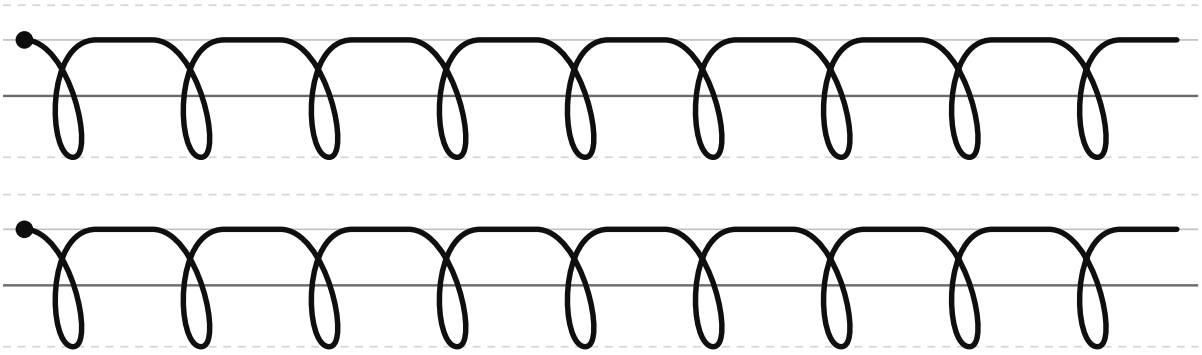

Example: tall-short l-e loops

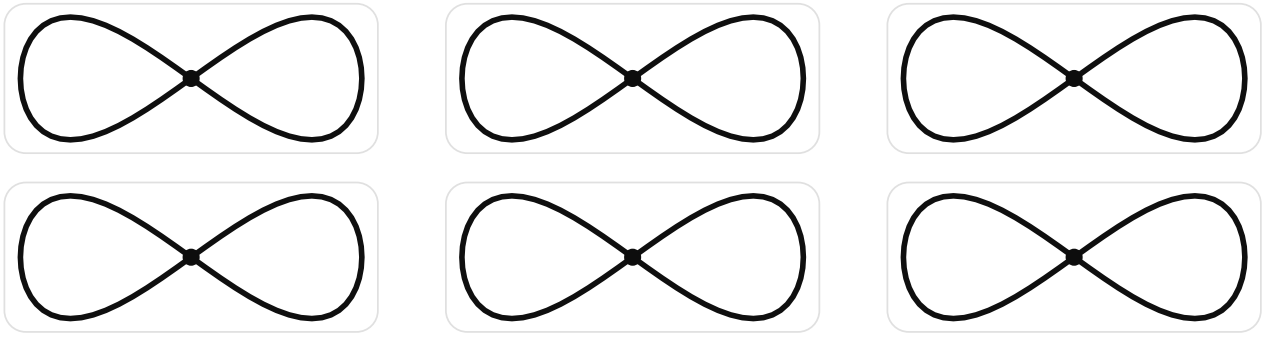

1. Alternating Tall-and-Short Upward Loops (l-e rhythm on sky-grass-earth lines)

2. Descending Under-Loops Below the Baseline (readiness for letters j, g, y)

3. Six Horizontal Figure-8 Skating Ribbons (follow the flow arrows smoothly)

Nila's tip: keep every loop rounded at the top and bottom, and glide steadily across the anchor dots without lifting!
