PAPILUMO / Kindergarten (ages 5–6) • Answer key

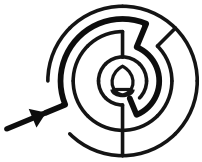

Circular Concentric Ring Mazes

Enter at each outer arrow and trace a smooth curved path down the middle of the rings to reach the center prize.

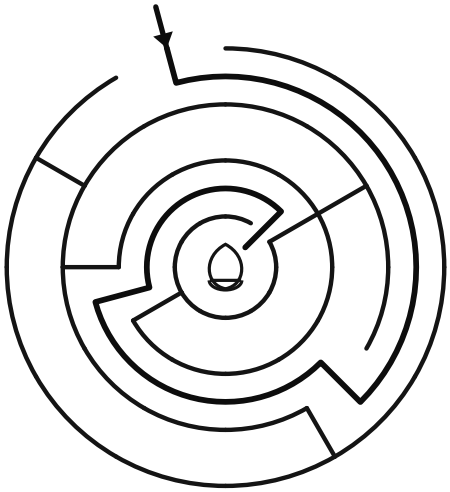

Mimo the Field Mouse lights the round tunnels with his lantern! Scan around each circular ring for open gates to reach the acorn.

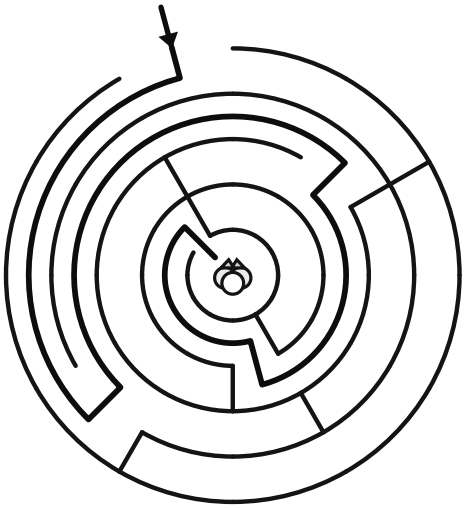

Example: 2-ring mini maze

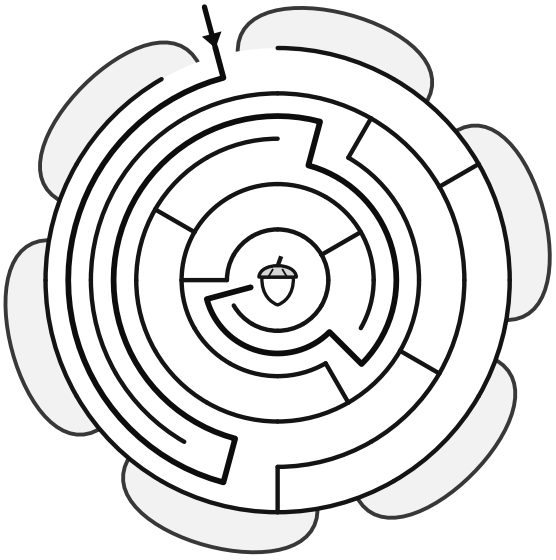

1. Three-Ring Circle Maze: reach the hazelnut at the center

2. Four-Ring Circle Maze: reach the forest berry at the core

3. Six-Petal Flower Maze (4 rings): guide Mimo safely to the central acorn

Mimo's tip: scan 360 degrees around each circular channel with your eyes to spot the real gate before your pencil turns!
