PAPILUMO / 2nd Grade

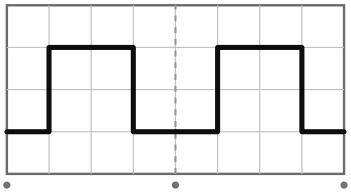

Geometric Border Friezes on Square Grid

Study the 2 solid starter units, trace the light dotted transition unit, and continue each geometric border cleanly across the grid.

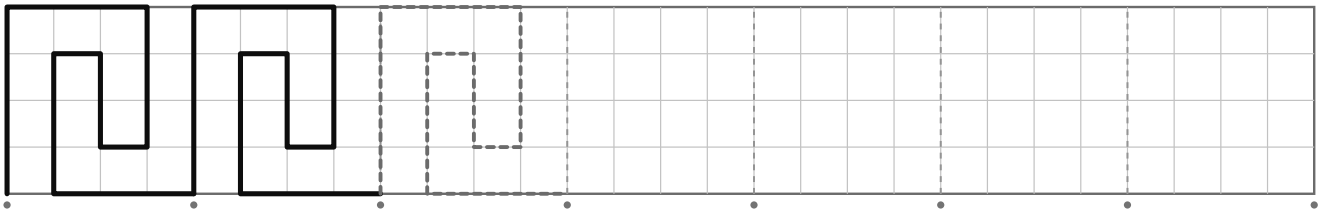

Basile the Mosaic Badger frames his tilework! Follow the square-grid corners carefully to extend each continuous border pattern.

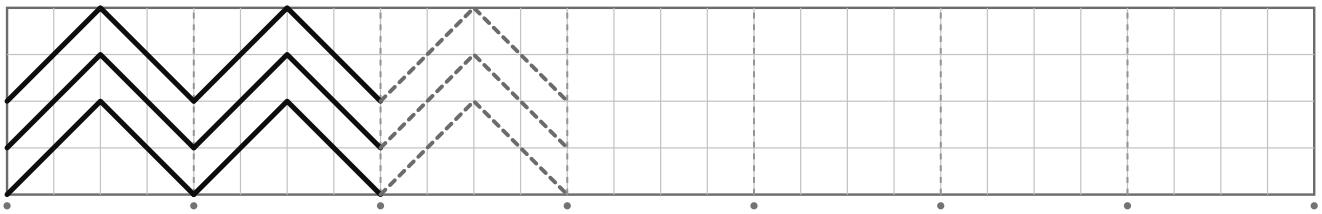

Example: 2-unit stepped wave frieze

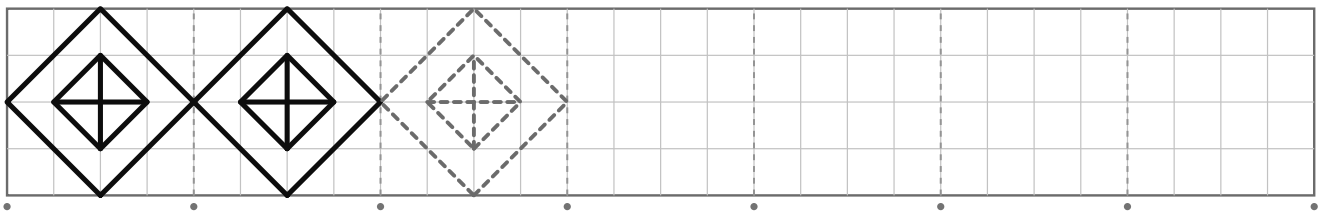

Frieze 1: Greek-Key Meander (repeat the 4-square unit cleanly)

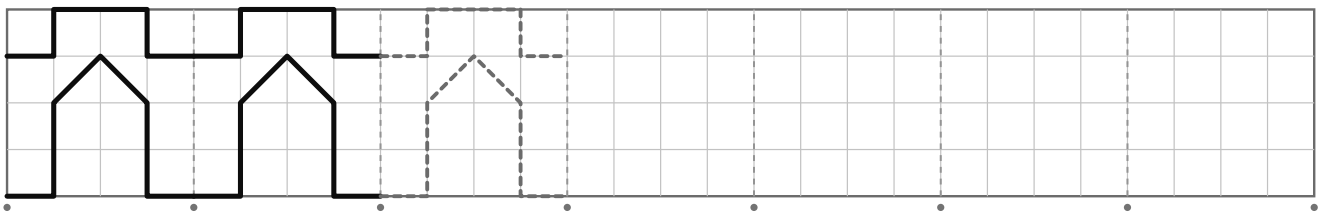

Frieze 2: Interlocking Zigzag Chevron Ribbon (follow grid diagonals)

Frieze 3: Nested Diamond and Cross Chain

Frieze 4: Stepped Castle Battlement & Arch Border

Basile's tip: count 4 squares wide by 4 squares tall for every single repeating unit before drawing straight segments!
