PAPILUMO / 3rd grade · guided challenge

15 times table: use 10 and 5

Complete all twelve products. Use $15 = 10 + 5$ to help you.

Felix the fox packs 15 seeds in each bag. How many seeds are there altogether?

Example: 4 bags of 15 seeds

$$15 \times 4 = (10 \times 4) + (5 \times 4)$$

$$40 + 20 = 60$$

Four bags contain 60 seeds.

Find the $\times 10$ part and the $\times 5$ part. Add the two amounts.

$$15 \times 1 =$$

$$10 \times 1 + 5 \times 1$$

$$15 \times 2 =$$

$$10 \times 2 + 5 \times 2$$

$$15 \times 3 =$$

$$10 \times 3 + 5 \times 3$$

$$15 \times 4 =$$

$$10 \times 4 + 5 \times 4$$

$$15 \times 5 =$$

$$10 \times 5 + 5 \times 5$$

$$15 \times 6 =$$

$$10 \times 6 + 5 \times 6$$

$$15 \times 7 =$$

$$10 \times 7 + 5 \times 7$$

$$15 \times 8 =$$

$$10 \times 8 + 5 \times 8$$

$$15 \times 9 =$$

$$10 \times 9 + 5 \times 9$$

$$15 \times 10 =$$

$$10 \times 10 + 5 \times 10$$

$$15 \times 11 =$$

$$10 \times 11 + 5 \times 11$$

$$15 \times 12 =$$

$$10 \times 12 + 5 \times 12$$

The smaller expressions are hints. Every bag holds 15 seeds.
