PAPILUMO / 3rd Grade · guided practice

19 times table: start with 20

Multiply the factor by 20, then subtract that factor. Complete all twelve products.

Nora the fox packs 19 invitations in each bundle. Help her find the totals.

Example: 4 bundles of 19 invitations

19 × 4 = (20 × 4) − 4

80 − 4 = 76

Start with 4 bundles of 20. Remove one invitation per bundle.

19 = 20 − 1: multiply by twenty, then subtract the factor once.

19 × 1 = ☐

(20 × 1) − 1

19 × 2 = ☐

(20 × 2) − 2

19 × 3 = ☐

(20 × 3) − 3

19 × 4 = ☐

(20 × 4) − 4

19 × 5 = ☐

(20 × 5) − 5

19 × 6 = ☐

(20 × 6) − 6

19 × 7 = ☐

(20 × 7) − 7

19 × 8 = ☐

(20 × 8) − 8

19 × 9 = ☐

(20 × 9) − 9

19 × 10 = ☐

(20 × 10) − 10

19 × 11 = ☐

(20 × 11) − 11

19 × 12 = ☐

(20 × 12) − 12

Use each small expression as a hint. The drawings are not counting objects.
