Count back by 2s with Pipo

Pipo is taking the sled back to the igloo. Help find the way!

10 $\xrightarrow{-2}$ 8 $\xrightarrow{-2}$ 6

A number line diagram showing a sequence of numbers decreasing by 2. The sequence starts at 20, goes to 18, then to an empty box, then to another empty box, then to 12, then to a third empty box. From there, it goes down to a fourth empty box, then to 6, then to a fifth empty box, then to 0, and finally to a drawing of a dome. Arrows between boxes are labeled -2.

Three number lines are shown, each representing a sequence of numbers decreasing by 2. Each number line consists of five boxes and four arrows labeled -2 .

Number line 1: $16 \rightarrow 14 \rightarrow \square \rightarrow \square \rightarrow 8$

Number line 2: $14 \rightarrow 12 \rightarrow \square \rightarrow \square \rightarrow 6$

Number line 3: $10 \rightarrow 8 \rightarrow \square \rightarrow \square \rightarrow 2$
