

Fecha : _____

Multiplicar dos números de dos cifras

Calcula los dos productos parciales y súmalos.

Basilio el castor cuenta baldosas. Cada operación da el total de varias cajas.

Ejemplo: 14 cajas de 23 baldosas

$$23 \times 14 = (23 \times 4) + (23 \times 10)$$

$$92 + 230 = 322$$

4 unidades y 1 decena: $14 = 4 + 10$.

Multiplica por las unidades y por las decenas. Suma las dos filas.
