Nome : _____ Data : _____

PAPILUMO | Classe terza (8–9 anni) | 1/3 · 2/3 · 3/3

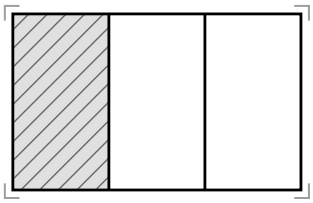

I terzi: colorare e scrivere la frazione

Colora il numero di terzi richiesto in ogni figura, poi scrivi numeratore e denominatore.

Il castoro Noè taglia le sue tavole e le sue torte in 3 parti esattamente uguali. Aiutalo a colorare la frazione giusta!

Esempio: colorare un terzo (1 parte su 3 parti uguali)

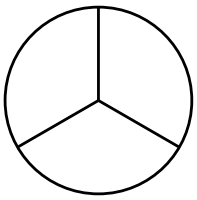

→ = 1/3

1 parte colorata in alto (numeratore) su 3 parti uguali in tutto in basso (denominatore).

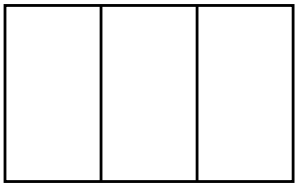

= 1 / 3 ●○○ = 2 / 3 ●●○ = 3 / 3 ●●●

1 Colora un terzo

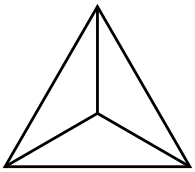

→ = ☐/☐

2 Colora due terzi

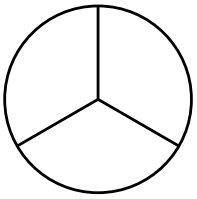

→ = ☐/☐

3 Colora un terzo

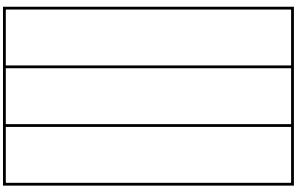

→ = ☐/☐

4 Colora due terzi

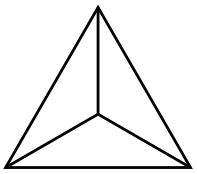

→ = ☐/☐

5 Colora tre terzi

→ = ☐/☐

6 Colora due terzi

→ = ☐/☐

- Ogni figura è divisa in 3 parti uguali: il denominatore è sempre 3 e il numeratore indica le parti colorate.
