Nome : _____ Data : _____

PAPILUMO / Classe prima (6–7 anni)

I doppi dal 6 al 10

Osserva le due metà uguali su ogni carta illustrata, poi completa i sei calcoli rapidi con somme e addendi mancanti.

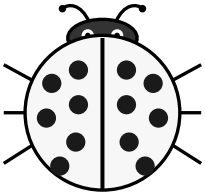

Nila la farfalla gemella ha 6 puntini su ogni ala:
6 + 6 = 12! Aiutala a scoprire tutti i grandi doppi fino a 20.

Esempio: ali gemelle di Nila — 6 + 6 = 12.

6 + **6** = **12**

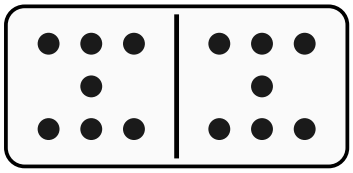

1. Calcola i cinque doppi illustrati a specchio (6+6 a 10+10)

1

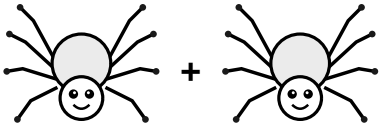

6 + 6 = ☐

2

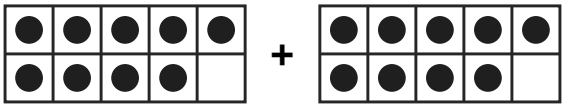

7 + 7 = ☐

3

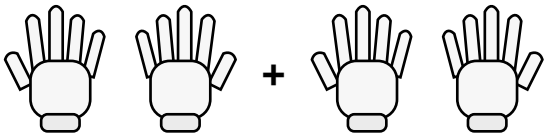

8 + 8 = ☐

4

9 + 9 = ☐

5

10 + 10 = ☐

2. Completa i sei doppi veloci e gli addendi uguali mancanti

1

7 + 7 = ☐

2

☐ + ☐ = **18**

3

6 + 6 = ☐

4

☐ + ☐ = **16**

5

10 + 10 = ☐

6

☐ + ☐ = **12**

Consiglio: un doppio somma sempre due volte lo stesso numero. Controlla che le due caselle vuote contengano la stessa cifra!
