Nome : _____ Data : _____

PAPILUMO / Infanzia (4–5 anni) • Soluzioni

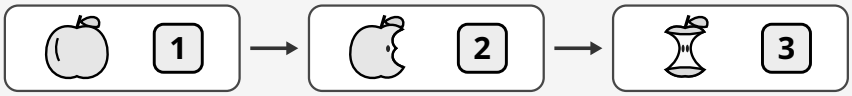

Mettere in ordine una storia (1, 2, 3)

Osserva ogni storia in tre vignette mescolate, poi scrivi 1 (prima), 2 (poi) e 3 (infine) nei quadrati qui sotto.

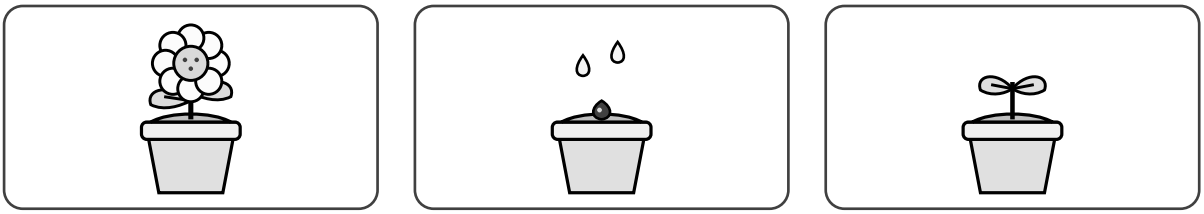

Lulu la tartaruga racconta-storie adora le storie in tre scene, ma i disegni si sono mescolati. Aiutala a numerarli 1, 2, 3!

Esempio: 1. Mela intera (prima) • 2. Mela morsicata (poi) • 3. Torsolo (infine)

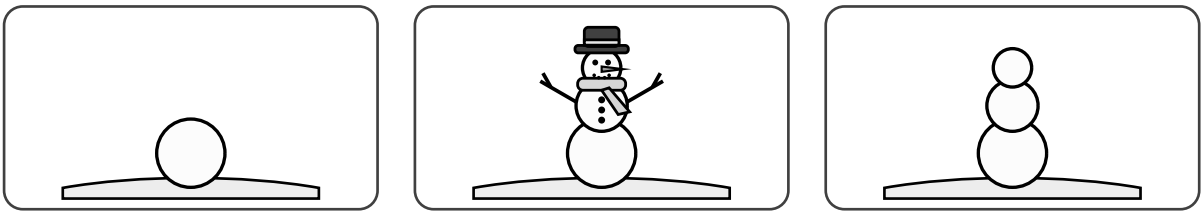

Scrivi 1, 2 o 3 sotto ogni immagine per ricostruire l'ordine delle quattro storie:

A

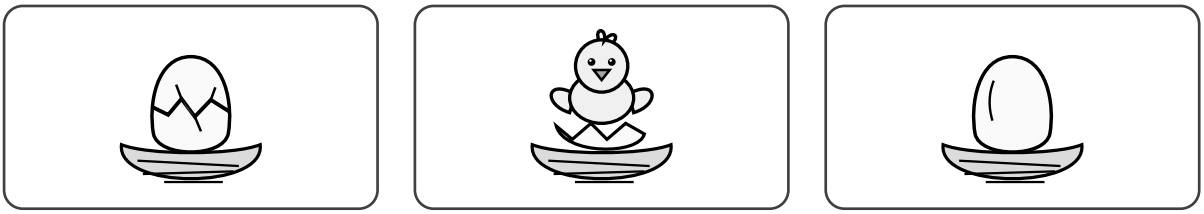

3 | 1 | 2

B

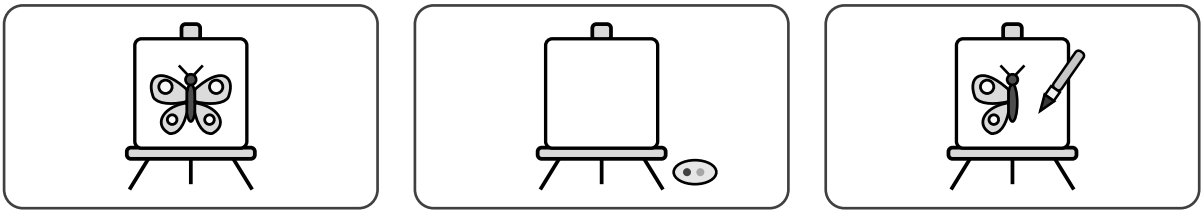

1 | 3 | 2

C

2 | 3 | 1

D

3 | 1 | 2

Consiglio: trova prima la scena iniziale (1) e quella completata alla fine (3), poi metti al centro la scena di mezzo (2).
