Tutto sul quadrato

Ricalca i quadrati tratteggiati, conta i lati uguali e gli angoli, poi cerchia gli oggetti quadrati.

Un quadrato ha 4 lati uguali e 4 angoli dritti!

Esempio: il quadrato

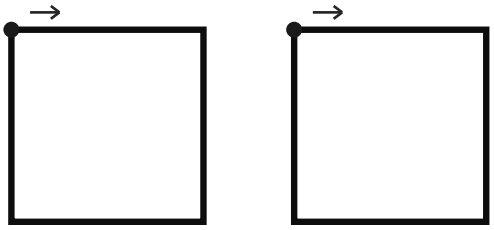

4 lati uguali

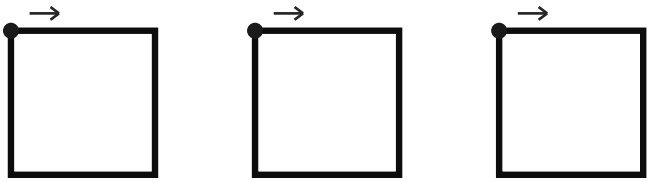

4 angoli

1. Ricalca i quadrati grandi e medi lungo i puntini

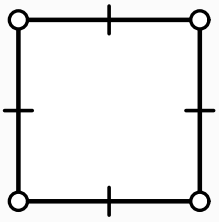

Quadrati grandi

Quadrati medi

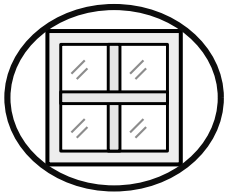

2. Osserva il quadrato e scrivi quanti lati uguali e quanti angoli ha

Lati uguali **4**

Angoli **4**

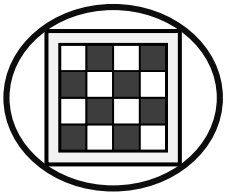

3. Cerchia i quattro oggetti che hanno la forma di un quadrato

Finestra

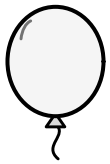

Orologio

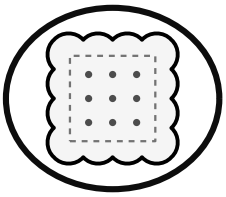

Scacchiera

Fetta di pizza

Palloncino

Biscotto quadrato

Pacco regalo

Consiglio di Basile: passa il dito su tutti e quattro i lati per vedere che hanno la stessa lunghezza.
