

Sottrazioni con il numero mancante entro 10

Barra i pallini fino a lasciare il risultato indicato. Scrivi quanti ne hai barrati.

Esempio: parto da 7, ne lascio 4 e ne tolgo 3.

$$7 - 3 = 4$$

3 pallini barrati e 4 rimasti: $7 - 3 = 4$.

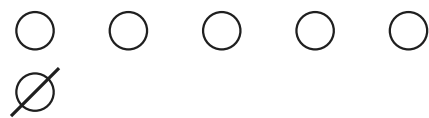

1.

$$5 - \boxed{3} = 2$$

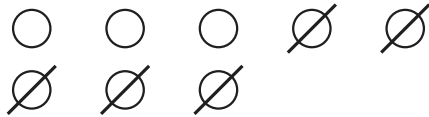

2.

$$6 - \boxed{1} = 5$$

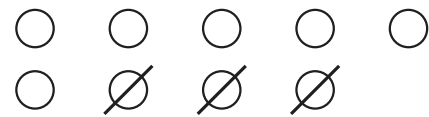

3.

$$8 - \boxed{5} = 3$$

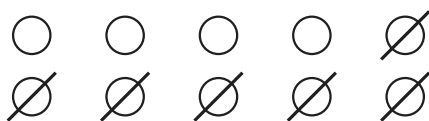

4.

$$9 - \boxed{3} = 6$$

5.

$$10 - \boxed{6} = 4$$

6.

$$7 - \boxed{7} = 0$$

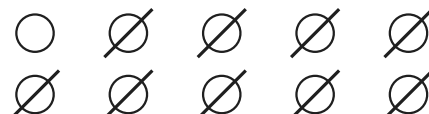

7.

$$6 - \boxed{0} = 6$$

8.

$$10 - \boxed{9} = 1$$

Si possono barrare pallini diversi, purché la quantità tolta sia la stessa.
