PAPILUMO | Infanzia 5 anni (5–6 anni) | Soluzioni

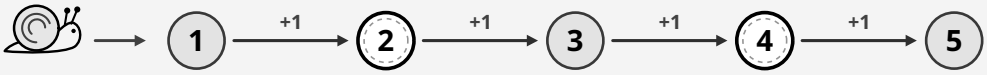

Numeri mancanti da 1 a 10: sentieri del giardino

Osserva l'esempio della lumaca con Bibi, completa i quattro sentieri in avanti (+1) e poi i due sentieri all'indietro (-1).

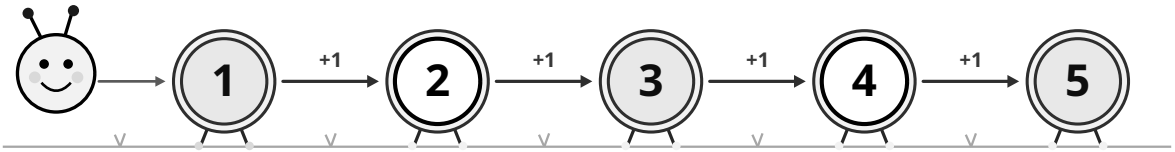

Cra! Sono Bibi la rana del giardino: segui le frecce lungo ogni percorso per trovare tutti i numeri mancanti da 1 a 10!

Esempio: avanti di +1 sul percorso (1 - [2] - 3 - [4] - 5)

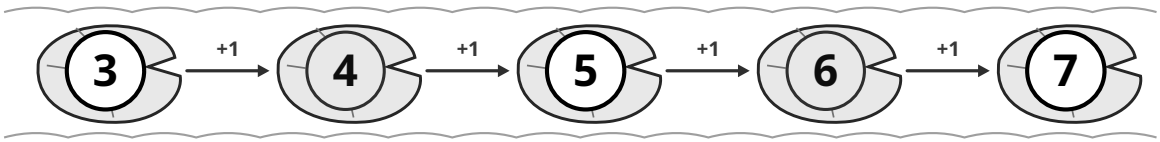

1. Conta in avanti (+1) e scrivi i numeri mancanti

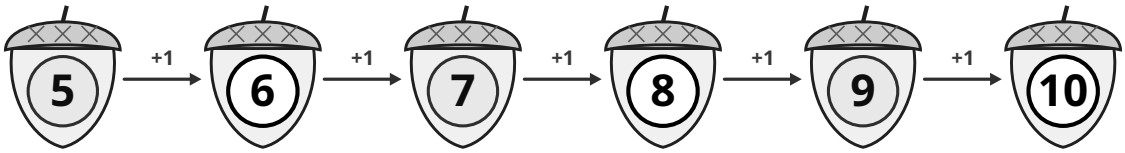

1 → +1 →

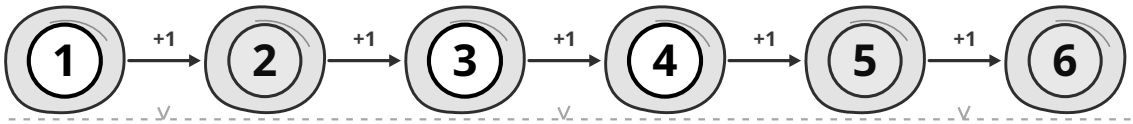

2 → +1 →

3 → +1 →

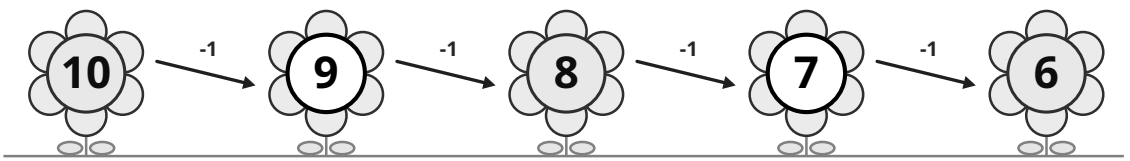

4 → +1 →

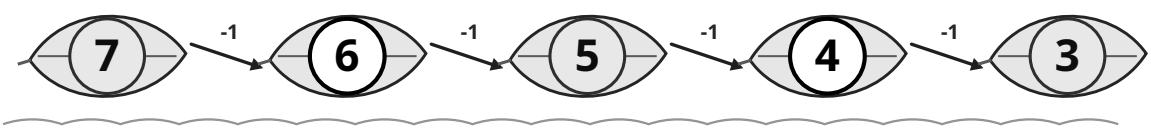

2. Conta all'indietro (-1) seguendo la freccia verso il basso

5 → -1 ↘

6 → -1 ↘

Consiglio di Bibi: controlla sempre il segno della freccia (+1 per salire, -1 per scendere) e poi rileggi l'intera sequenza ad alta voce.
