PAPILUMO / Infanzia (5–6 anni) • Soluzioni

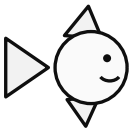

Contare le forme nei disegni

Conta quanti triangoli, quadrati, rettangoli e cerchi formano ogni disegno e cerchia il kit esatto del robot.

A Lou il castoro piace costruire con le forme! Conta i pezzi di ogni disegno e cerchia il kit che contiene esattamente quelli del suo robot.

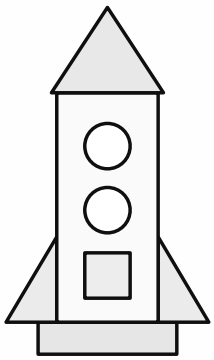

Esempio: pesce

△ 3 ○ 1

1. Scrivi quante forme di ciascun tipo compongono ogni disegno.

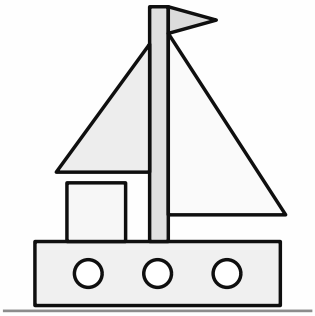

Razzo

△ 3 □ 1

▭ 2 ○ 2

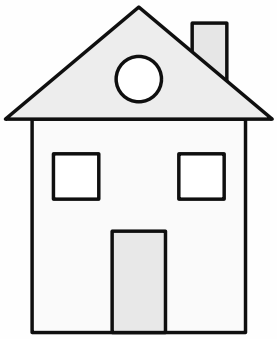

Barca a vela

△ 3 □ 1

▭ 2 ○ 3

Casetta

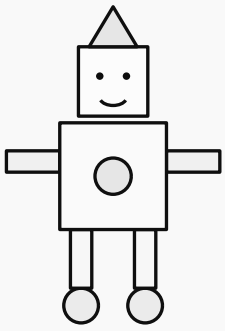

△ 1 □ 3

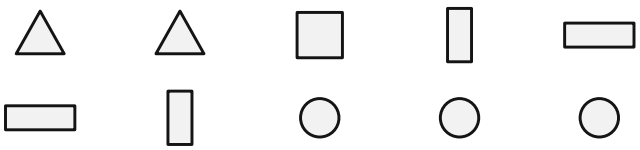

▭ 2 ○ 1

2. Osserva il robot di Lou e cerchia il kit (A o B) con i suoi pezzi esatti.

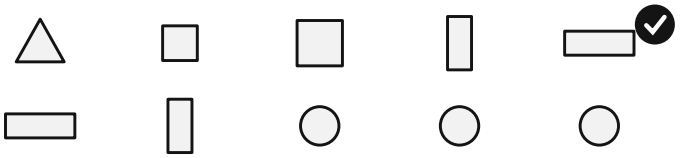

Robot di Lou

Kit A

Kit B

Consiglio di Lou: fai un piccolo puntino a matita dentro ogni figura già contata per non contarla due volte!
