# I doppi - 1 : quasi doppi fino a 20

Scrivi il doppio del numero maggiore nelle prime due caselle, togli 1 e scrivi il totale nell'ultima casella.

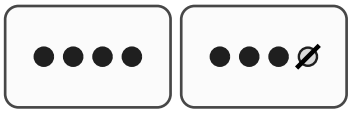

Il coniglio Timo salta sul doppio più grande e poi fa un piccolo salto indietro (- 1) per trovare il risultato!

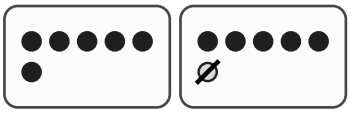

**Esempio: 5 + 4 = 5 + 5 - 1 = 9**

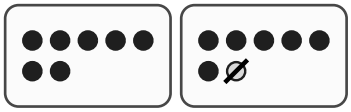

**5 + 4 ⟶ 5 + 5 - 1 = 9**

1 **4 + 3 =**
