

Scomporre i numeri fino a 20

Il totale è in alto. Scrivi il numero mancante in ogni cestino.

La lontra Mila divide i suoi sassolini fra due cestini. Aiutala a completare i numeri!

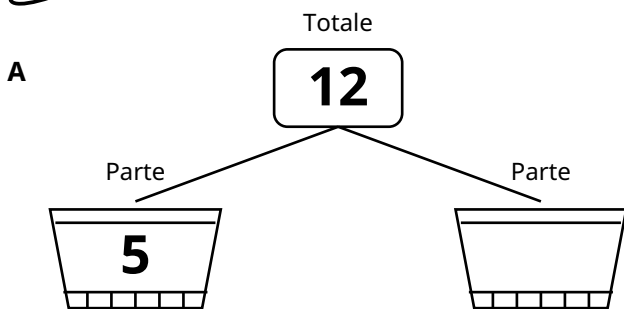

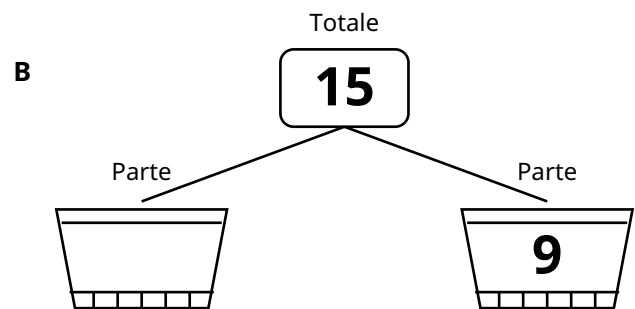

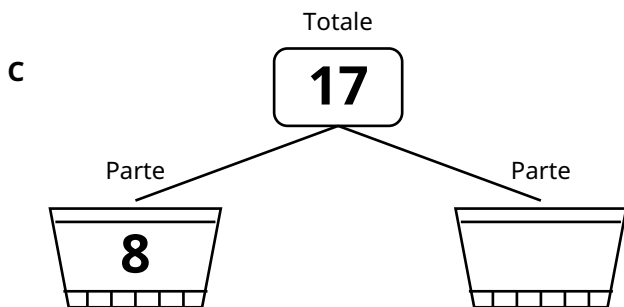

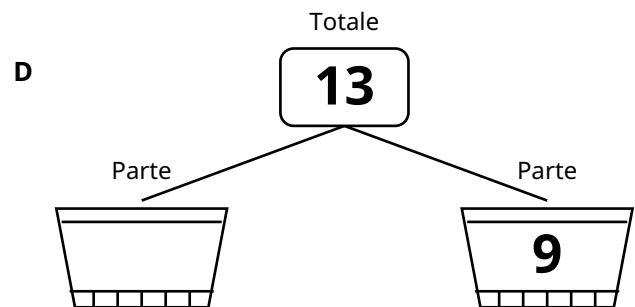

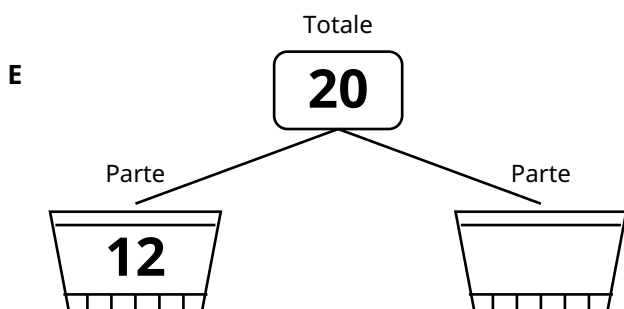

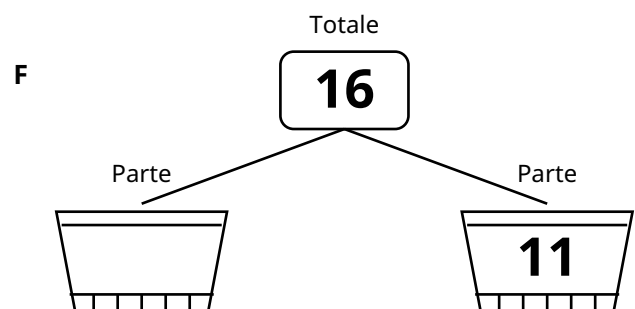

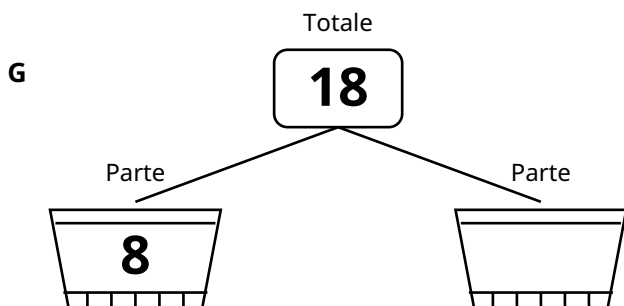

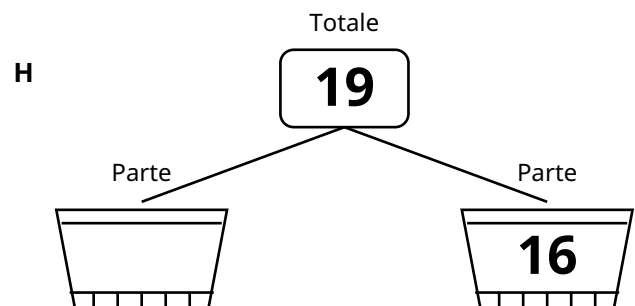

Esempio: due parti formano il totale

$$8 + 6 = 14$$

8 + 6 = 14: mancano 6 sassolini.

Controlla: la somma delle due parti deve dare il totale.
