

Décomposer les nombres jusqu'à 20

Le total est en haut. Écris le nombre manquant dans chaque panier.

Mila la loutre répartit ses galets dans deux paniers. Aide-la à compléter les nombres !

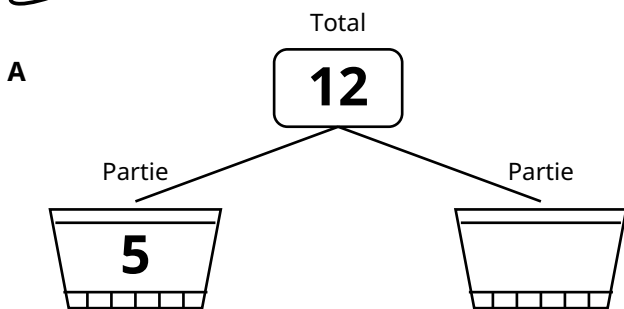

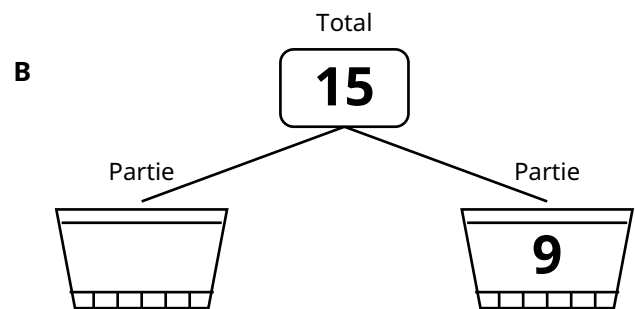

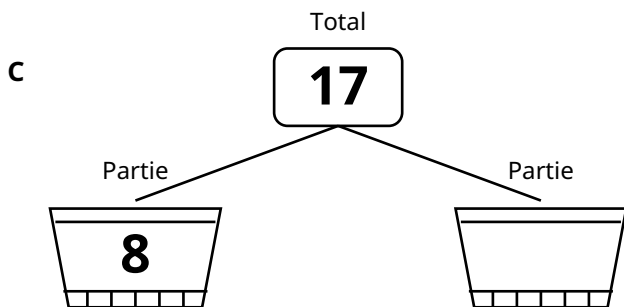

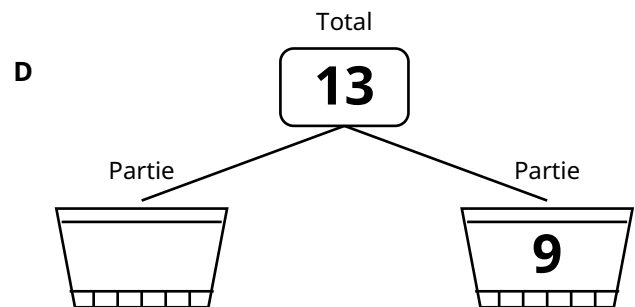

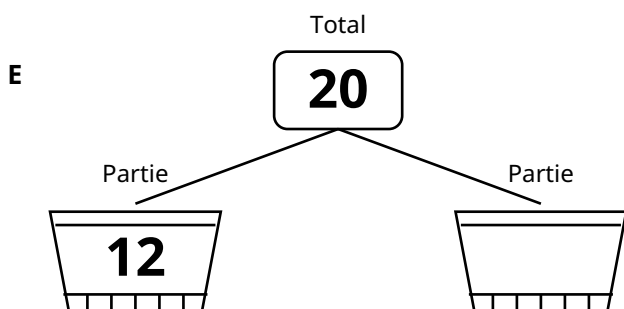

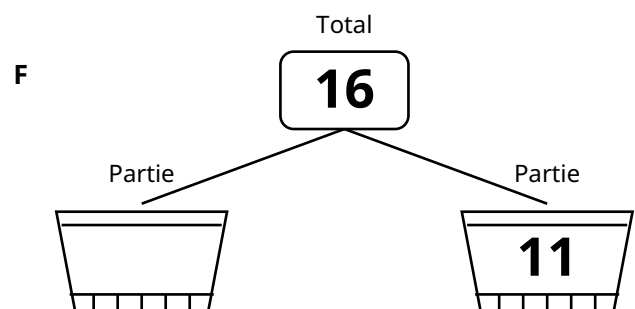

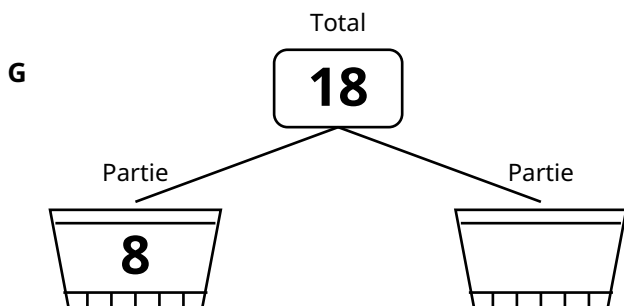

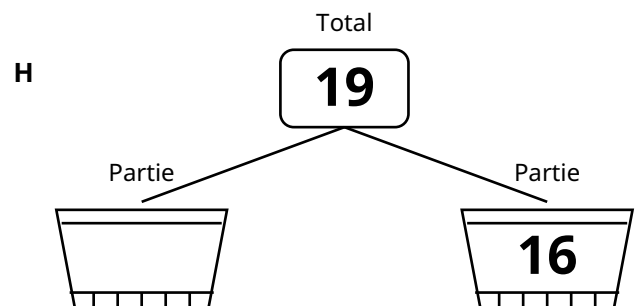

Un exemple : deux parties forment le total

$$8 + 6 = 14$$

$8 + 6 = 14$: il manque 6 galets.

Vérifie : les deux parties additionnées donnent toujours le total.
