Nome : _____ Data : _____

PAPILUMO / 1.º ano (6–7 anos) • Soluções

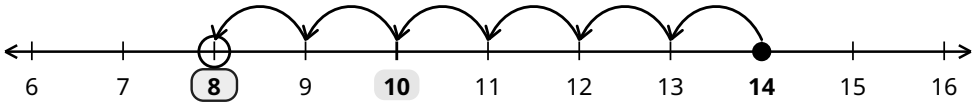

Subtrações na reta numérica até 20

Começa no primeiro número, desenha cada salto para trás e escreve a diferença.

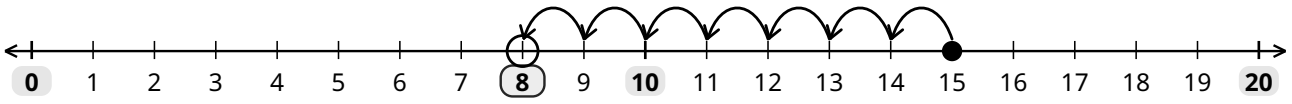

O Kiko o canguru salta para trás no seu trilho! Conta cada pulo para a esquerda até chegares ao destino.

Exemplo: 14 − 6 = 8 (parte de 14 e recua 6 saltos)

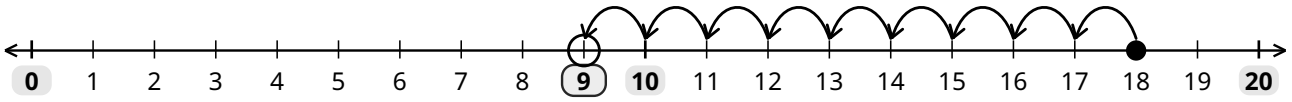

- Não contes o 14 como um salto: contas 1 apenas quando pousas no 13.

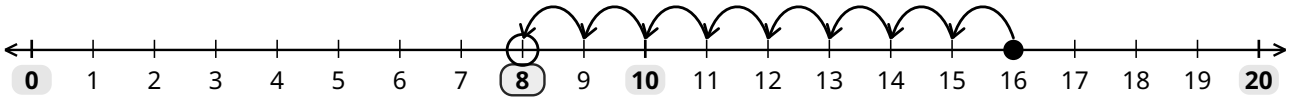

1 **15 − 7 =** **8**

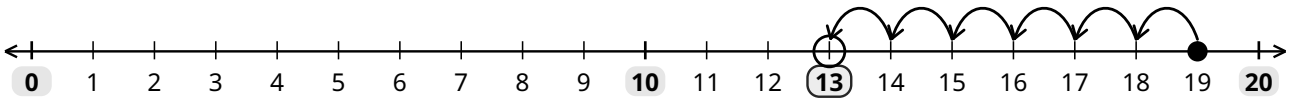

2 **18 − 9 =** **9**

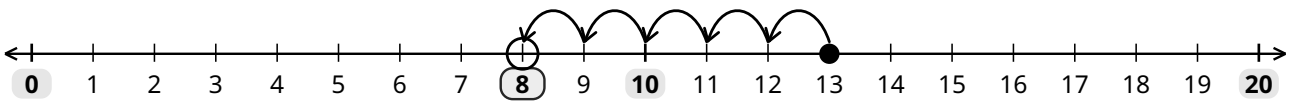

3 **16 − 8 =** **8**

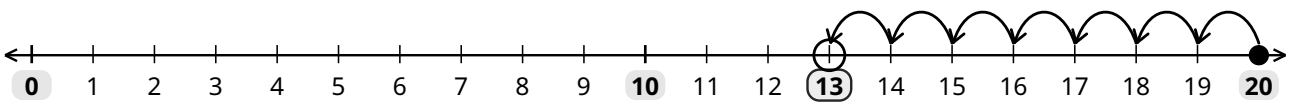

4 **19 − 6 =** **13**

5 **13 − 5 =** **8**

6 **20 − 7 =** **13**

- Dica do Kiko: liga com um arco nítido duas marcas vizinhas de cada vez, sem saltar nenhum número.
